

ENVIRONMENTAL POLICY STATEMENT

Midcontinent (Great Yarmouth) undertakes to carry out its business in an environmentally responsible manner.

Midcontinent (Great Yarmouth) considers that the protection of the environment is an integral part of its business activities. The company will ensure that this environmental policy and associated management system is understood, implemented and maintained and communicated to all levels of management, supervisors and all employees.

Midcontinent (Great Yarmouth) shall take into account the environmental policies of customers and shall aim to achieve in its operations the highest practicable standards of environmental protection.

The goals of this policy and associated management system are to:

- Comply fully with all applicable environmental laws and regulations and achieve the highest standards of environmental protection.
- Comply with the environmental policies of associated business partners.
- Provide a framework for setting and reviewing environmental objectives and targets.
- Make efficient use of the materials and energy sources used in the facility.
- Carry out business with minimum disturbance to the environment.
- Minimize the generation of waste and use environmentally acceptable means of disposing of wastes.
- Maintain an awareness of environmental responsibilities amongst employees.
- Ensure that a process of continuous improvement is achieved through auditing and performance review of this policy.
- Maintain contact with industry associations, government organizations and other outside bodies in order to ensure the communication and development of realistic environmental standards.
